## ABOUT *Ug*

With over three decades of experience in the building industry, Jeff Blanck brings a wealth of knowledge and expertise to INH Inverell. Jeff's journey in construction began in 1992, where he honed his skills in carpentry across Toowoomba, Brisbane, and Ipswich. His passion for creating quality structures led him to specialize in joinery, spending 13 years mastering both civil and residential construction in Toowoomba.

Jeff moved to Inverell 11 years ago, joining forces with renowned builder Chris Russel. Together, they focused on joinery and building, establishing a reputation for excellence in the local community. In a significant milestone, Jeff purchased the business from Chris and has grown the business, combining tradition with innovation to meet the diverse needs of our clients.

At INH Inverell, we specialise in building custom and project homes tailored to your vision and budget. Jeff's extensive background in carpentry and joinery ensures that every project is completed to the highest standards. Whether you're looking to build your dream home from scratch or embark on a new project, we are here to guide you through every step of the process.

# Your new home, built with *The Best*

Integrity New Homes only use trusted and skilled brands proven in their trade, resulting in premium finishes to your new home.

# 8 STEPS TO BUILDING AN INTEGRITY NEW HOME!

01

At your initial consultation we discuss your budget and building requirements.

You will then complete the Preliminary Services Agreement and pay a Preliminary Services Fee (price varies) to order a soil test, contour survey, preliminary drawings and any other reports that may be required for your block of land.

02

03

Once you have chosen a house design or a custom design is created, we will provide a Preliminary Estimate to build on your selected block of land (this price will include all the items you want in your new home and may include landscaping, driveway, clothesline, letterbox and floor coverings).

Building contracts and working drawings are then prepared and a deposit is required at this stage. We then arrange a colour selection to finalise fittings and finishes of your new home.

04

05

It is then time for the building approval to be created, compiled, and submitted. Upon issuance of the building approval (including any conditions) work then begins on all the purchase orders for all suppliers and trade contractors finalised and scheduled.

Commencement on site will begin in accordance with individual building contracts. This will occur once final written finance approval has been obtained by you along with other conditions (e.g. proof of land title, land registration, site possession, and subject to weather).

06

07

Construction commences and is then subsequently completed with handover and any maintenance items addressed.

*Enjoy your new home...*
