# CLIENT *Testimonials*

“

*Home was a custom build. Darren was very approachable which meant communication during this build was excellent. Darren made recommendations at certain stages of the build which was highly appreciated. I also had access to the tradies at different times. Their workmanship was excellent. Custom build was completed on time.*

**David Berends**

*“Darren Jones and his team carried out a comprehensive renovation/refurbishment/makeover of our prestige acreage riverfront architectural home, giving it a modern and fresh finish. Our house had been on the market for quite some time without achieving a sale before we engaged Darren. After the work, we sold the property within six weeks of its relaunch on the market. We were very happy with Darren’s advice and quality of work and his ability to suggest and provide innovative, cost-effective and attractive solutions to issues. The work was completed on time and within budget. We are now looking to use Darren’s services again to carry out substantial renovations to our Queenslander house.”*

# Your new home, built with *The Best*

Integrity New Homes only use trusted and skilled brands proven in their trade, resulting in premium finishes to your new home.

# 8 STEPS TO BUILDING AN INTEGRITY NEW HOME!

01

At your initial consultation we discuss your budget and building requirements.

You will then complete the Preliminary Services Agreement and pay a Preliminary Services Fee (price varies) to order a soil test, contour survey, preliminary drawings and any other reports that may be required for your block of land.

02

03

Once you have chosen a house design or a custom design is created, we will provide a Preliminary Estimate to build on your selected block of land (this price will include all the items you want in your new home and may include landscaping, driveway, clothesline, letterbox and floor coverings).

Building contracts and working drawings are then prepared and a deposit is required at this stage. We then arrange a colour selection to finalise fittings and finishes of your new home.

04

05

It is then time for the building approval to be created, compiled, and submitted. Upon issuance of the building approval (including any conditions) work then begins on all the purchase orders for all suppliers and trade contractors finalised and scheduled.

Commencement on site will begin in accordance with individual building contracts. This will occur once final written finance approval has been obtained by you along with other conditions (e.g. proof of land title, land registration, site possession, and subject to weather).

06

07

Construction commences and is then subsequently completed with handover and any maintenance items addressed.

*Enjoy your new home...*
